1. Claims 1-33 are presented for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-11 and 17-33, drawn to presenting data accessed from a remote server, classifiable in class 709 subclass 219.

Group II. Claims 12-16, drawn to processor architecture, classifiable in class 712 subclass 32.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations. (M.P.E.P. § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because any computer system with a browser can access remote data. The subcombination has separate utility such as being used in a distributed data processing system.

4. The inventions are distinct, each from the other because of the following reasons:

- a. These inventions have acquired a separate status in the art as shown by their different classification

b. The search required for one Group is not required for the other Groups

For the reasons above restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Duke W. Yee on May 19, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
